

My School is Closing For a While

In school, I learn from my teachers and play with my friends.

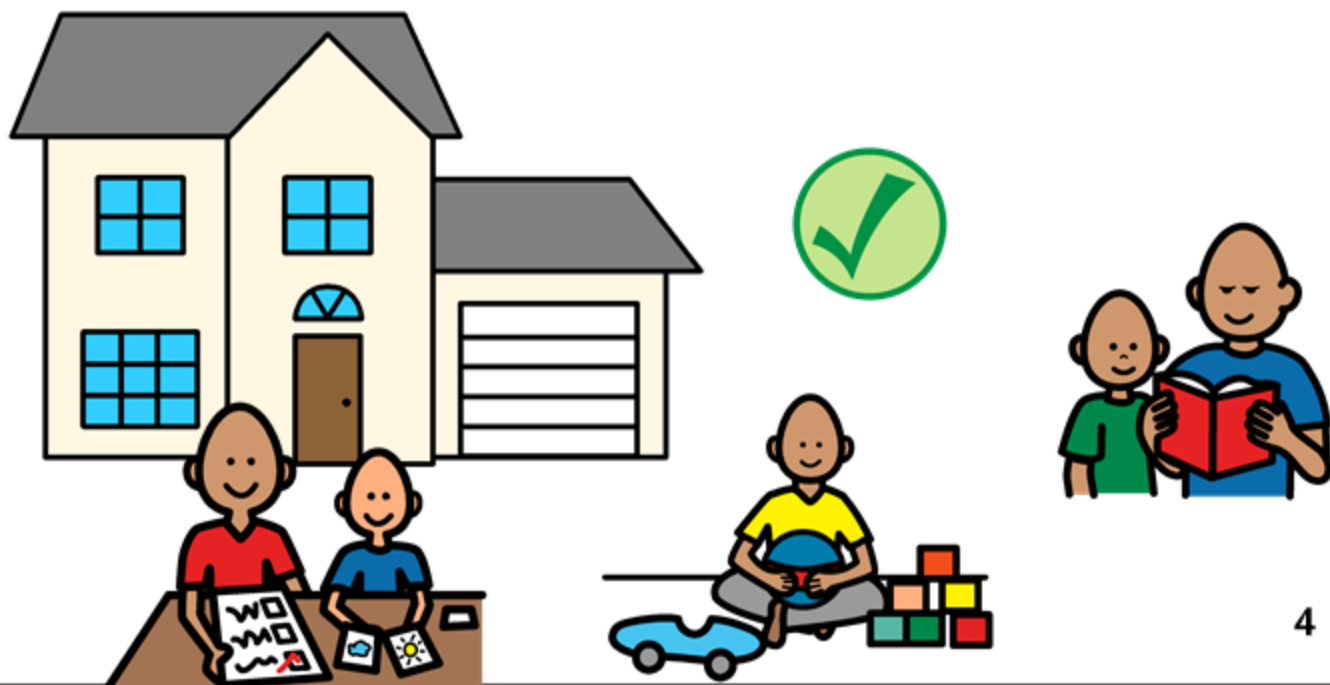

Sometimes a lot of people get sick and school needs to close for a while.

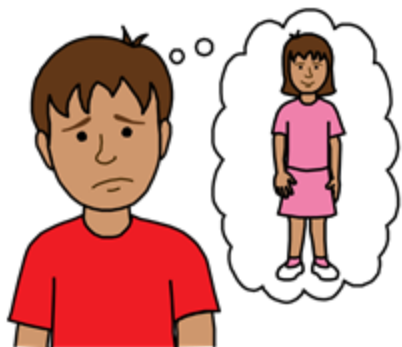

This will help keep us all healthy.

My school will open again as soon as it is safe.

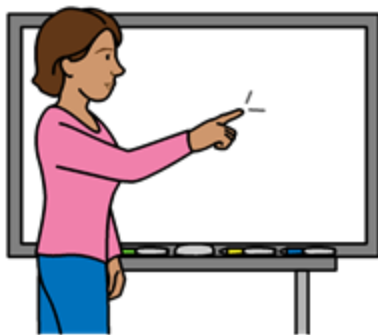

I can learn and play at home while school is closed.

I might be missing my friends and teachers.

I might be confused or sad when there is no school.

I can be good at home. Things will be OK.  
My family and teachers will be so proud  
of me!
